Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of *First South Farm Credit, ACA* (Association) for the period ended March 31, 2007. These comments should be read in conjunction with the accompanying consolidated financial statements, notes to the consolidated financial statements and the 2006 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans. The Association's loan portfolio is diversified over a range of agricultural commodities including poultry, cotton, livestock and forestry. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, somewhat reduces the level of dependency on any single commodity.

The gross loan volume of the Association as of March 31, 2007, was \$1,120,700, an increase of \$2,323, as compared to \$1,118,377 at December 31, 2006. Net loans outstanding at March 31, 2007, were \$1,114,563 as compared to \$1,112,501 at December 31, 2006. Net loans accounted for 91.46 percent of total assets at March 31, 2007, as compared to 90.34 percent of total assets at December 31, 2006. The minor increase in loan volume during the reporting period is primarily attributable to seasonal lending. The short-term part of the portfolio is heavily influenced by operating-type loans that normally peak in September and rapidly decline in the fall and winter months when farm commodities are marketed.

There is an inherent risk in the extension of any type of credit. Portfolio credit quality continues to be maintained at an acceptable level and credit administration remains satisfactory. Nonaccrual loans decreased from \$2,964 at December 31, 2006, to \$2,950 at March 31, 2007.

Association management maintains an allowance for loan losses in an amount considered sufficient to absorb possible losses in the loan portfolio based on current and expected future conditions. The allowance for loan losses at March 31, 2007, was \$6,137 compared to \$5,876 at December 31, 2006, and was considered by management to be adequate to cover probable losses.

RESULTS OF OPERATIONS

For the three months ended March 31, 2007

Net income for the three months ended March 31, 2007, totaled \$5,013, as compared to \$4,249 for the same period in 2006. Net interest income increased \$591 for the three months ended March 31, 2007, as compared to the same period in 2006. The increase in net interest income was primarily the result of an increase in average accruing loans outstanding of 16.19 percent for the three months ending March 31, 2007, compared to the same period of 2006.

Noninterest income for the three months ended March 31, 2007, totaled \$2,678, as compared to \$2,299 for the same period of 2006, an increase of \$379. The increase is primarily the result of an increase in loan fees of \$99, an increase in equity in earnings of AgFirst Farm Credit Bank (the Bank) of \$277, an increase in gains on other property owned of \$2, and an increase in other noninterest income of \$3, partially offset by a decrease in fees for financially related services of \$2. Noninterest expense for the three months ended March 31, 2007, increased \$175 compared to the same period of 2006. The primary reasons for the increase in noninterest expense were an increase in occupancy and equipment expense of \$1, an increase in the Insurance Fund premium of \$51, and an increase in other operating expenses of \$221, partially offset by a decrease in salaries and employee benefits expense of \$98.

The Association recorded a provision for loan loss of \$250 for the three months ended March 31, 2007, compared to a provision of \$200 for the same period in 2006. The Association recorded a benefit from income taxes of \$4 compared to a provision of \$15 for the same period in 2006.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with the Bank through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at March 31, 2007, was \$965,228 as compared to \$978,396 at December 31, 2006.

CAPITAL RESOURCES

Total members' equity at March 31, 2007, decreased to \$220,050 from the December 31, 2006, total of \$223,375. The decrease is primarily attributed to the retirement of allocated earnings of \$8,459, partially offset by net income of \$5,013 and an increase in capital stock and participation certificates of \$84.

Total capital stock and participation certificates were \$64,412 on March 31, 2007, compared to \$64,328 on December 31, 2006. This increase is attributed to the issuance of member stock associated with the increase in gross loan volume at March 31, 2007, compared to December 31, 2006.

Farm Credit Administration (FCA) regulations require all Farm Credit institutions to maintain minimum permanent capital, total surplus and core surplus ratios. These ratios are calculated by dividing the Association's permanent capital, total surplus and core surplus as defined in FCA regulations, by a risk-adjusted asset base. As of March 31, 2007, the Association's total surplus ratio and core surplus ratio were 12.73 percent and 10.86 percent, respectively, and the permanent capital ratio was 13.94 percent. All three ratios were well above the minimum regulatory ratios of 7.00 percent for permanent capital and total surplus ratios and 3.50 percent for the core surplus ratio.

ACCOUNTING FOR DEFINED BENEFIT PENSION AND OTHER POSTRETIREMENT PLANS

On September 29, 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 158 - Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans. The Standard requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and recognize changes in

that funded status in the year in which the changes occur through comprehensive income. The Standard is effective for employers with publicly traded securities for the fiscal year ending after December 15, 2006 and for employers without publicly traded securities for the fiscal year ending after June 15, 2007. The Association will be required to implement the Standard for the year ended December 31, 2007. In addition, this Standard requires that the funded status of a plan be measured as of the date of the year-end financial statements. Currently, the Association uses a measurement date of September 30th. The requirement to measure the funded status as of the fiscal year-end is effective for fiscal years ending after December 15, 2008. The Association is currently evaluating the impact of implementing this Standard. It is anticipated that the impact from the implementation of this Standard will have no impact on the income statement and, based on the current funded status of the defined benefit plans, it is not expected to have a material or significant impact on the balance sheet.

STOCKHOLDER INVESTMENT

Stockholder investment in the Association could be affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst Farm Credit Bank's Quarterly and Annual Reports are on the AgFirst website, www.agfirst.com, or may be obtained at no charge by calling 1-800-845-1745, extension 316, or writing Wanda Martin, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Copies of the Association's Annual and Quarterly reports are also on the Association's website, www.firstsouthfarmcredit.com, or may be obtained upon request free of charge by calling 1-800-955-1722 or writing Bryan Applewhite, First South Farm Credit, ACA, P. O. Box 6008, Ridgeland, MS 39158-6008. The Association prepares a quarterly report within 45 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)
(unaudited)

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A description of the organization and operations of First South Farm Credit, ACA (the Association), the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2006, are contained in the 2006 Annual Report to Shareholders. These unaudited first quarter 2007 consolidated financial statements should be read in conjunction with the 2006 Annual Report to Shareholders.

On September 29, 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 158 – Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans. The Standard requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and recognize changes in that funded status in the year in which the changes occur through comprehensive income. The Standard is effective for employers with publicly traded securities for the fiscal year ending after December 15, 2006 and for employers without publicly traded securities for the fiscal year ending after June 15, 2007. The Association will be required to implement the Standard for the year ended December 31, 2007. In addition, this Standard requires that the funded status of a plan be measured as of the date of the year-end financial statements. Currently, the Association uses a measurement date of September 30th. The requirement to measure the funded status as of the fiscal year-end is effective for fiscal years ending after December 15, 2008. The Association is currently evaluating the impact of implementing this Standard. It is anticipated that the impact from the implementation of this Standard will have no impact on the consolidated income statement and, based on the current funded status of the defined benefit plans, it is not expected to have a material or significant impact on the consolidated balance sheet.

The accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles. The results for the three months ended March 31, 2007, are not necessarily indicative of the results to be expected for the year ending December 31, 2007.

Certain amounts in prior period consolidated financial statements may have been reclassified to conform to current consolidated financial statement presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The Association maintains an allowance for loan losses in accordance with generally accepted accounting principles. The loan portfolio is reviewed quarterly to determine the adequacy of the allowance for losses. As of March 31, 2007, the allowance for losses is adequate in management’s opinion to provide for possible losses on existing loans.

NOTE 2 – ALLOWANCE FOR LOAN LOSSES

An analysis of the allowance for loan losses follows:

	For the three months ended March 31,	
	2007	2006
Balance at beginning of period	\$ 5,876	\$ 5,425
Provision for (reversal of) loan losses	250	200
Loans (charged off), net of recoveries	11	(191)
Balance at end of period	<u>\$ 6,137</u>	<u>\$ 5,434</u>

NOTE 3 – EMPLOYEE BENEFIT PLANS

The Association’s employees participate in a defined benefit retirement plan. This plan is noncontributory and covers substantially all employees of the Association.

The following is a table of the components of net periodic benefit (income) cost for the defined benefit retirement plan for the three months ended March 31, 2007:

	For the three months ended March 31,	
	2007	2006
Service cost	\$ 316	\$ 377
Interest cost	630	587
Expected return on plan assets	(754)	(718)
Amortization of net (gain) loss	(85)	(84)
Amortization of prior service cost	(14)	36
Recognized net actuarial (gain) loss	158	280
Net periodic benefit (income) cost	<u>\$ 251</u>	<u>\$ 478</u>

As of March 31, 2007, no contributions have been made to the pension plan for 2007. The Association anticipates making contributions of \$760 during the remainder of 2007.

The Association also participates in Districtwide thrift and other postretirement benefit plans. The other postretirement benefit plan provides certain benefits (primarily health care) to its retirees.

The following is a table of retirement and postretirement benefit expense for the three months ended March 31, 2007:

	For the three months ended March 31,	
	<u>2007</u>	<u>2006</u>
Pension	\$ 251	\$ 478
Thrift/deferred compensation	59	60
Other postretirement benefits	86	100
Total	<u>\$ 396</u>	<u>\$ 638</u>
